SEEDERS • AERATORS • SPREADERS • SPRAYERS • MIXERS • SLASHERS • CULTIVATORS • WRAPPERS

Standard Features Include

- ✓ **Heavy duty frame** – Designed with a square frame structure to maximize durability.
- ✓ **Heavy duty poly hopper** – It is made of PE material, so it is not crushed even by strong impact and is hard, durable and resistant to corrosion.
- ✓ **Hopper Volume** – 200 – 340 liters
- ✓ **Spreading width adjustment** – 6m – 12m
- ✓ **Ground driven system** – Power is not necessary since it is spreaded by the rotation of the wheel. It can be used by attaching it to ATV or UTV
- ✓ **Stainless steel parts** – Hopper, prevention plate, spinner disc and vanes are made of stainless steel material to reduce corrosion.
- ✓ **Accurate rate control lever** – Installing lever guide pin to lock in the lever on desired rate.
- ✓ **Height adjustable drawbar** – The height of the drawbar is adjustable, so it is convenient to level it while working.
- ✓ **Electric remote control system(Option):**
 - A system that controls the capacity without opening the rear door inside the tractor
 - No rear windshield damage when the spreader is lifted
